

## Color

We do our best to reach a vibrant yet natural color in our photos and videos. In the event you are NOT pleased with the color, we offer an included touch-up at no additional cost in most cases (this is at the discretion of AGM and any product or service rendered that requires a more involved touch-up or re-edit MAY demand a nominal fee of \$50 for photos and up to \$150 for videos).

## Sound

We carefully select appropriate music that matches the aesthetic and "feel" of your listing. We often times will match the BPM of the music to match the transitions from clip to clip and so on.. We also can add sound effects and your voiceover (if applicable). Changing the audio track is not as easy as it sounds, especially with all this layered on top of eachother. Music, voice, sound effects, timing etc. Should you desire specific audio, let us know prior and we can accommodate. Any audio re-edits WILL have a nominal fee of \$150.

## Timing

Frame by frame, we polish the timing of each clip, each transition and each beat, each voiceover etc. This is one of the more time consuming parts of producing your video. We aim to pace our videos at a medium-fast paced which usually results in a 2-4 minute video. We always use our best judgement when deciding the length and pacing to capture attention and not linger too long on certain parts. Should you desire a more specific length or pacing, let us know prior and we can accommodate. Any timing adjustments WILL have a nominal fee of \$150. 2 business day turnaround on photos. 5-7 business day turnaround for videos. Special Projects vary.

## Miscellaneous

There are many things AGM can do to help. We offer basic logo creation, animations, social media overlays, numerous AI tools, we can even help you with a script during your walkthrough video. This list goes on and on, however, we do ask that you come prepared if at all possible. We will help with this but you must inform AGM This means YOU need to provide: any specifics for shooting day and editing as it may be costly to re-edit, any logos, social media handles, contact information, end-frames and a script for your walkthrough if applicable.

## Acknowledged

By booking, you are agreeing to our policy.
